www.fifiii.com

Accomplished designer with 8 years of cross-disciplinary experience spanning UX/UI, brand identity, motion, 3D, packaging, and wayfinding systems. Blends 4A advertising agency creativity with a product-minded approach, adept at the full lifecycle from user research to final design delivery. Recently at Huawei, led complex B2B and B2C projects including the Pangu AI Model and Huawei Cloud official website. Proficient in using AI tools to accelerate design decisions, with foundational front-end collaboration skills (HTML/CSS, design system engineering) to bridge design and development seamlessly.

WORK EXPERIENCE

- 2021
11
/
Present

Huawei – User Experience Center (ODC) UX Design Lead

- Lead product design for Pangu AI Model, Huawei Cloud official website, Cloud Marketplace, Developer Alliance, and FAB (Financial Intelligence Accelerator). Achieved over 70% first-pass approval on design proposals, significantly reducing review iterations.
 - Mastery of Web, iOS, Android, and HarmonyOS design guidelines; spearheaded the creation of a cloud product component library and Design Tokens to ensure visual consistency across platforms.

Leverage user behavior data and A/B testing to proactively identify experience friction points, delivering rapid optimization solutions that improved key page conversion rates by 12% (internal metrics).

Utilize Midjourney and Stable Diffusion for early-stage concept exploration, cutting proposal turnaround time by 30%; write custom Figma scripts (auto-annotation, batch renaming) to streamline handoff and reduce development overhead.

Shixiang Technology Co., Ltd Design Director

- Managed all brand visual outputs (VI, packaging, key visuals, product photography, e-commerce pages) to align brand communication with business goals.
 - Led the design of the Jiben Faze Hydrating Stick; within one year of launch, it ranked #1 on Tmall's Double 11 beauty device chart. Also handled submission materials for Red Dot and iF awards.
 - Supervised a team of 5 designers, implemented cost-control strategies, and coordinated cross-functionally with supply chain and marketing to ensure on-time, high-quality delivery.

Independently designed the full UX/UI for the brand's official website and mobile app, establishing a standard process of user research → prototyping → testing → iteration.

4A Advertising Agency Visual Designer

- Delivered end-to-end creative solutions for clients including Qiu Dashu Lemon Tea, Zanzo Life, Cradle Baby, and Paparella Cosmetics, from concept pitching to final execution.
 - Designed the main visual identity for the Tencent Global Digital Ecosystem Summit, along with WeChat Moments ads and large-event collateral, ensuring consistent online-offline messaging.

Developed and implemented wayfinding system standards for Guangfa Bank – Smart Bank, as well as signage projects for South China Botanical Garden and Nanjing City Wall Museum, balancing functionality with aesthetic appeal.

EDUCATION

Guilin University of Electronic Technology
Bachelor's in Visual Communication
2011 – 2015

Ranked 1st in the city in the Fine Arts College Entrance Examination – a testament to solid foundational drawing and colour skills.

CORE COMPETENCIES

UX/UI Design
Web, App, HarmonyOS, Android, iOS

Brand & Visual Systems
VI, KV, packaging, wayfinding

Motion & 3D
After Effects, Blender

Design Toolchain
Sketch, Figma, XD, Photoshop, Illustrator, Axure, InDesign, Premiere

AI-Assisted Design
Midjourney, Stable Diffusion for rapid concept generation

Vibe Coding
Familiar with HTML/CSS fundamentals; able to write Figma plugin scripts (auto-annotation, batch rename) and use Python to process design data; collaborate with development teams on Design Tokens and Storybook component integration.
